

STATE OF UTAH

FY 2003 BUDGET GUIDELINES HIGHLIGHTS

OVERVIEW

- The one-time nature of the revenue growth for FY 2002, coupled with numerous prior commitments and potential reductions in federal funding, limits the amount of new revenue available for ongoing budget increases for FY 2003. Thus, agency budget requests should include only mandatory items, as outlined below.

REQUESTS FOR ADDITIONAL FUNDING

New Program Requests:

- Funding for new programs (including programs being proposed through legislation) that require state funds (i.e. General Fund or school funds) may be requested only if the state funding comes from within existing base funding levels.
- Funding for new programs funded from federal funds, dedicated credits, fixed collections, and/or restricted funds must be submitted to GOPB as a request for a budget increase.

Existing Programs Requests are limited to the following situations:

1. Mandatory Items

- Federal mandates or federal match rate changes;
- Caseload growth for federal or state mandated programs;
- Existing critical program needs dealing with public health and safety, and;
- Replacement of one-time funding for critical ongoing programs.

2. Other Items

- Due to the slower growth rate in state revenue collections, other items should not be requested.

Although GOPB will give priority to mandatory items, it is possible that not all mandatory items can be funded within available revenue.

PRIOR APPROVAL

- GOPB's approval is required before submitting final requests for budget increases.

OTHER CRITICAL AREAS OF GOPB REVIEW FOR FY 2003

- GOPB will closely scrutinize all increases in non-state funds, including federal funds, dedicated credits, fixed collections, and/or restricted funds;
- GOPB will closely scrutinize FTE growth, and;
- GOPB will closely scrutinize nonlapsing fund balances and proposed uses.

DUE DATES

- Preliminary requests - September 14, 2001

STATE OF UTAH FY 2003 BUDGET GUIDELINES

GUIDELINES PURPOSE AND AUTHORITY

PURPOSE

These guidelines instruct entities desiring an appropriation of state monies on the procedure for preparing budget requests to the governor. The governor will review the requests, then prepare and submit his budget recommendations to the legislature.

AUTHORITY

These guidelines are issued under the authority of and pursuant to Utah Code 63-38-2(7)(a):

Any entity desiring an appropriation must follow the governor's guidelines.

For the purpose of preparing the budget the governor shall require from the proper state officials, including public and higher education officials, all heads of executive and administrative departments and state institutions, bureaus, boards, commissions, and agencies expending or supervising the expenditure of the state monies, and all institutions applying for state monies and appropriations, itemized estimates of revenues and expenditures. The governor may also require other information under guidelines and at times as the governor may direct.

FY 2003 BASE BUDGET

Agencies are to build budget requests on FY 2002 funding levels adjusted for one-time appropriations, plus other GOPB approved adjustments.

The FY 2003 base budget is calculated by starting with the FY 2002 General Fund and school funds appropriations, reducing those amounts for one-time appropriations, and making other adjustments as needed. This same process is also followed for restricted funds and Transportation Fund. The FY 2003 base budgets for these funds are shown in Tables 1 thru 5.

ONE-TIME APPROPRIATIONS

Column b in Tables 1 thru 5 shows the amount for one-time projects that must be backed out of FY 2002 appropriations for General Fund, school funds, Transportation Fund, and restricted funds.

WORKING HOURS

Base budgets are adjusted for number of working days

There are 2,088 working hours in FY 2003 compared to 2,080 in FY 2002. Thus, an adjustment for one extra working day has been made to FY 2003 base budgets, as shown in column c of Tables 1 thru 5.

Non-state funds will be used for compensation and benefit increases.

NON-STATE FUNDS

Agencies are to reserve a portion of their non-state funds (i.e., federal funds, dedicated credits, fixed collections, and restricted funds) to cover compensation and benefit changes. See the discussion under the heading Personal Service Increases for more information.

Agencies may not enter into new non-state funded programs without prior approval.

Agencies may not start or begin participation in non-state funded programs or activities without GOPB approval. Such financing may obligate or commit the state to eventually spend state funds. Requests to enter into such programs must be made using Form 400, *Request for Increase in Funds for FY 2003 Budget*.

Agencies are required to absorb inflation within base budgets.

INFLATION

Agencies are to fund inflationary increases for FY 2003 within existing budgets.

New programs requiring state funds should be absorbed within base budgets.

GOPB may build in appropriate amounts for increases in rates for statewide internal service funds.

New programs funded with other sources require prior approval.

BASE BUDGET PROGRAM PRIORITIES

Because of the one-time nature FY 2002 revenue growth, uncertainty surrounding federal funding, and Governor Leavitt's desire to properly manage government growth, departments should closely examine programs within the base budget for FY 2003.

Any department desiring to create or start a new program or service must propose elimination of an existing program or service, or reduce its base budget to provide funding for the new activity. A Form 400 must be completed for each proposed new program or service.

Tobacco Settlement Fund appropriations are set by statute.

TOBACCO SETTLEMENT FUNDS

Agencies should not include requests for budget increases from tobacco settlement funds in their budget packages. The future appropriation of these funds is outlined in Senate Bill 15, *Use of Tobacco Settlement Revenues* (2000 General Session), and should be included in the appropriate agency's base budgets.

OLYMPIC-RELATED REQUESTS

Olympic related costs have already been funded.

Agencies may not include requests to fund Olympic related impacts in their budget package. The legislature has appropriated to the State Olympic Officer the funds necessary for the impacts from the 2002 Olympic Winter Games.

INFORMATION TECHNOLOGY REQUESTS

IT BUDGET REQUESTS LINKED TO IT PLANS

IT budget requests must be included in IT Plans and approved by the CIO before GOPB will consider them for new funding.

Requests for funding of information technology projects must be submitted through the state's chief information officer's (CIO) review process. This process has been modified to incorporate the new portfolio management software - PLAN-IT.

For budget year FY 2003, GOPB budget and policy analysts will work more closely with the CIO to better coordinate the review and approval of IT requests and related requests for funding.

Initial entry of information about IT plans are due to the CIO's section of the Governor's Office of Planning and Budget by **June 30, 2001**. Updates to agency IT plans, including FY 2003 budget requests, are due to the CIO by **September 14, 2001**.

IT INNOVATION FUND GRANTS

Agencies receiving IT Innovation Fund grants shall transfer one-half the realized savings back to the fund in the fiscal year the system becomes operational.

Agencies that receive grants from the IT Innovation Fund for FY 2002 should add the grant amounts to their General Fund base budgets as one-time funding for FY 2002. Since these amounts are not yet known, they are not included in Tables 1 thru 5. The intent of these grants is to create efficiencies in government services.

Thus, one-half the savings realized by state agencies from implementing these projects will be transferred, as a base budget adjustment, to the IT Innovation Fund in the fiscal year the new information system is operational. GOPB will require each agency receiving an IT Innovation Fund grant to sign a contract with the chief information officer outlining the amount of this base budget transfer and fiscal year it will take place. GOPB will then make the appropriate base budget transfers.

FEDERAL FUNDS

New federal programs may not be implemented

Any agency currently receiving federal aid or planning to receive federal aid in the future must complete a federal funds reporting form (Form 370).

Without prior approval, agencies may not begin a new program or activity with federal aid, particularly if it creates an expectation that the state will

without prior approval.

maintain or continue this program or its infrastructure when the grant expires or is reduced.

Also, agencies may accept or use federal aid only for programs that are consistent with the needs and goals of the state and its citizens and that are not prohibited by the provisions of state law. For more information on accepting federal aid, see 63-40-1 of the *Utah Code*.

APPROPRIATED LOAN FUNDS

Agencies should submit loan program data, even if funds are not appropriated.

Any agency that manages an appropriated loan or grant fund should include estimates for revenue, expenditures, and loan amounts in their budget packages.

PERSONAL SERVICES

VACANCIES AND TURNOVER SAVINGS

Budget for and fund only those vacancies that are likely to be filled in FY 2002 and FY 2003. Do not include contingency positions, i.e., positions that regardless of funding source will only be filled under unusual or unanticipated circumstances. The inclusion of contingency positions could lead to funding reductions through the elimination of those positions by GOPB or the fiscal analyst.

GOPB will not recommend positions that are not fully funded.

Agencies are required to budget for turnover savings.

Agencies should budget turnover savings for each program. Turnover savings reflect the amount of money saved when a budgeted position remains unfilled or is underfilled. Turnover savings should be shown as a negative dollar amount in each program's personal services budget.

PERSONAL SERVICES INCREASES

Agencies should submit budget requests based upon FY 2002 benefit and salary rates.

Funding sources for the recommended compensation package and changes in benefit rates will be determined from the information included on Forms 334 and 335 (Detail of One Percent Change). The following should be considered when completing these forms:

1. Compensation and benefit rate changes should be funded using the same funding ratio as the base budget for each program (taking into account pass through federal and other funding). Programs with non-state funds (e.g., dedicated credits, restricted funds, federal funds, mineral lease revenue, and fixed collections) need to set aside revenue from these sources to cover compensation and benefit changes.

A portion of an agency's federal

funds, dedicated credits, etc., will be used to fund compensation.

2. If a program has insufficient non-state funding to cover its proportional share of personal service increases, it should consider raising fees, creating greater efficiency, or reducing services to cover compensation cost increases. Typically, General Fund will not be used to replace or supplement other funding sources.

GOPB's recommended compensation package will include a turnover factor.

FTE CALCULATIONS

Authorized and request year FTE counts should be comparable to actual year counts. Actual year FTE will be calculated by the Division of Finance for FY 2001 by dividing the total number of hours your agency paid by 2,080.

A full-time equivalent (FTE), by definition, equals the number of regular hours available for work during a given year. For most years, including FY 2002, this equals 2080 hours. For FY 2003 this equals 2088 hours.

When calculating FTE for your agency for FY 2002 (and for entering FTE into Budget Prep), use the following rules:

1. Include all ***permanent positions***, including seasonal, in FTE counts:
 - < A full-time, year-round position is equivalent to 1.0 FTE.
 - < For part-time, year-round positions, divide the annual hours worked by 2080. A person budgeted to work 15 hours per week year-round is .375 FTE, or $15 \text{ (hours)} * 52 \text{ (weeks)} / 2080$.
 - < For full-time, part-year positions, divide the annual hours worked by 2080. A person budgeted for six months at 40 hours per week is .50 FTE, or $40 \text{ (hours)} * 26 \text{ (weeks)} / 2080$.
 - < Budgeted overtime hours divided by 2080. An agency budgeting for 10,000 overtime hours should include 4.8 FTE, or $10,000 \text{ (hours)} / 2080$.
2. Do ***not include*** the following in FTE counts:
 - < Board and commission members
 - < Legislators
 - < Temporary positions
 - < Contracted positions
 - < Overtime funded from turnover savings

Agencies are required to follow standard rules to report FTE counts.

When determining FTE for your agency for FY 2003 (and for entering into Budget Prep), use these same rules but use 2088 hours instead of 2080 hours for all calculations.

LEGISLATION

BILLS

Agencies must submit all known legislation to GOPB with their budget package.

Agencies must submit a summary of any upcoming legislation on Form 102 by **September 28, 2001**. This includes legislation with and without a fiscal impact, and bills proposed by others outside your agency that you are aware of. The summary will be reviewed by the lieutenant governor, governor's general counsel, and GOPB. If drafted, a copy of the legislation should be included with the summary.

The governor's budget recommendations will include funding for legislation that he supports. Only legislation that has been reviewed in the budget process will be considered for inclusion in the budget.

INTENT STATEMENTS

Agencies must submit intent language requests to GOPB.

Agencies desiring legislative intent statements must submit them on Form 104 for approval along with their budget requests by **September 28, 2001**.

PERFORMANCE MEASURES

Additional emphasis is being placed upon performance measures.

Agencies are required to provide an inventory of all existing performance measures used to evaluate the effectiveness and efficiency of each program. The legislature is requiring each appropriations subcommittee review these measures. This information has been requested in the past, but only for new funding requests. This year, we are asking for a list of all performance measures used by each agency on Form 361.

VEHICLE REQUESTS

Agencies wishing to increase the number of vehicles in their fleet must do so through the budget process. This can be done by requesting intent language (Form 104), by requesting nonlapsing spending authority (Form 210), or by requesting new ongoing funding (Form 400). Regardless of the funding source, the agency should work with GOPB and the Legislative Fiscal Analyst (LFA) to accurately reflect the anticipated number of vehicles in the LFA report to the appropriations subcommittee.

REQUIRED BUDGET FORMS AND REPORTS

Agencies are required to submit

The required forms and Budget Prep reports for Budget Prep users are shown in Appendix One. ***It is suggested that agencies submit Budget Prep files electronically to GOPB for review and approval before printing and submitting hard copies of reports.*** The required forms for non-Budget Prep users are shown in Appendix Two.

DEADLINES

Attached is a planning and budget calendar for the FY 2003 budget cycle. Deadlines for the submission of budget data begin **September 14, 2001** and continue through **September 28, 2001**. Required data must be submitted on or before the specified due date.

Agencies not using Budget Prep are required to submit electronic data in a Budget Prep-compatible format. That data is due on or before **September 28, 2001**.

Task forces, commissions, and study groups whose recommendations fiscally impact the state should submit preliminary recommendations to GOPB by **September 14, 2001**.

FY 2003 PLANNING AND BUDGET CALENDAR

- 2001 -

June 30	Entry of FY 2001 IT Plans and Project Expenditures Completed
August 7	Statewide Internal Service Fund Rate Review Hearings
August 21	Statewide ISF Rate Approval Meeting
September 14	Preliminary Forms 400 and 600 Due to GOPB
September 14	Updates to Agency IT Plans for FY 2003 Due to Chief Information Officer
September 28	Final Budget Requests Due
September 28	Summary of Upcoming Legislation Due
September 28	Performance Measures Inventory Due
October 2 - 3	Building Board Hearings on Capital Development Projects
October 15	Building Board Prioritization / Recommendations
Oct. 29 - November 9	Governor's Budget Briefings (tentative dates)
November 1	Last Day for Governmental Entities to File Bills
December (early)	Governor's Recommendations Released
December 12	Executive Appropriations sets Legislative Priorities

- 2002 -

January 8 - 10	Legislative Appropriation Subcommittee Meetings
January 15 - 17	Legislative Interim Committee Meetings
January 21	Legislative Session Begins
February 9	Olympic Break Begins
February 24	Olympic Break Ends
March 6	Legislative Session Ends
