### 2008 Subcounty Population Estimates

The U.S. Census Bureau released July 1, 2008 subcounty population estimates on July 1, 2009. The report includes estimates for 19,496 incorporated places in the nation, 243 in Utah, as well as the unincorporated balance of counties.

**Nation**—According to U.S. Census Bureau population estimates for July 1, 2008, New Orleans, Louisiana was the fastest growing large city (population of 100,000 or more) in the nation with a growth rate of 8.2% from July 1, 2007 to July 1, 2008. All of the cities in the top ten were in the South or the West. Many of the cities are suburbs of larger nearby cities. Round Rock, Texas had the nation's second fastest growth rate (8.2%) among large cities between July 1, 2007 and July 1, 2008. It was followed by Cary, North Carolina (6.9%), Gilbert, Arizona (5.0%), and McKinney, Texas (4.8%). Rounding out the top ten fastest growing large cities in the U.S. are: Roseville, California; Irvine, California; Raleigh, North Carolina; Killeen, Texas; and Fort Worth, Texas.

New York, New York had the largest numerical population increase from 2007 and 2008, adding 53,498 people. It was followed by Phoenix, Arizona (33,184), Houston, Texas, (33,063), Los Angeles, California (26,969), and San Antonio, Texas (25,645). New York City continued to be the nation's most populous city, with 8.4 million residents. This was more than twice the population of Los Angeles, which ranked second at 3.8 million. It was followed by Chicago with 2.9 million, Houston with 2.2 million, and Phoenix with

1.6 million. Complete documentation on Census Bureau estimates methodology and full results of the latest population estimates can be found online at <http://www.census.gov/popest/estimates.php>.

**Utah**—According to the U.S. Census Bureau, West Haven had the highest growth rate between 2007 and 2008 for cities in Utah with populations of 5,000 or greater. It grew at a rate of 16.6% and was followed by Saratoga Springs (13.5%), Eagle Mountain (12.2%), Harrisville (11.0%), and Plain City (9.3%). South Jordan saw the largest numeric growth with an increase of 3,085 persons, followed by Lehi (3,048), Eagle Mountain (2,419), Salt Lake City (2,265), and West Jordan (2,002). Salt Lake City continued to be Utah's most populous city with a population of 181,698 followed by West Valley City (123,447), Provo (118,581), West Jordan (104,447), Sandy (96,660), and Orem (93,250).

With the release of the 2008 estimates, three of Utah's incorporated places changed the class of city in which they are grouped. Spanish Fork (31,538) and Tooele (30,120) moved from a fourth class city to a third class city and Lindon (10,466) moved from a fifth class city to a fourth class city. The Utah Population Estimates Committee (UPEC) prepares special subcounty estimates when estimates from the Census Bureau are not available. The complete list of the special estimates can be found online at <http://www.governor.utah.gov/dea/subcountyestimates.html>.

**Largest Cities in Utah in 2008**

City	2007	2008	Percent Change	Numeric Change
Salt Lake City	179,433	181,698	1.3%	2,265
West Valley City	122,374	123,447	0.9%	1,073
Provo	117,849	118,581	0.6%	732
West Jordan	102,445	104,447	2.0%	2,002
Sandy	96,074	96,660	0.6%	586
Orem	92,232	93,250	1.1%	1,018
Ogden	82,704	82,865	0.2%	161
St. George	70,982	72,718	2.4%	1,736
Layton	64,203	65,514	2.0%	1,311
Taylorsville	58,208	58,785	1.0%	577

## 2010 Census: IT'S IN OUR HANDS

### 2010 Census is Different

The Census Bureau has changed the way it conducts the national count.

### Goodbye Long Form

In the past, most households received a short-form questionnaire, while one household in

six received a long form that contained additional questions and provided more detailed socioeconomic information about the population.

The 2010 Census will be a **short-form only** census and will count all residents living in the United States as well as ask for name, sex, age, date of birth, race, ethnicity, relationship and housing tenure – taking just minutes to complete.

The more detailed socioeconomic information is now collected through the American Community Survey. The survey provides current data about your community every year, rather than once every 10 years. It is sent to a small percentage of the population on a rotating basis throughout the decade. No household will receive the survey more often than once every five years.

### Why fill out the census form?

Every household in the country will receive a questionnaire in 2010. To ensure an accurate and fair count of all populations at all geographic levels in the nation, the Census Bureau needs you or someone in your household to respond to the census questionnaire.

- It's important – Census data affect funding for your community, your community's representation in Congress and your community leader's planning decisions.
- It's easy – The census questionnaire takes only a few minutes to answer and return by mail.
- It's confidential – Your responses are protected by law (Title 13, U.S. Code, Section 9). All Census Bureau employees have taken an oath to protect confidentiality and are subject to a jail term, a fine –

or both – for disclosing any information that could identify a respondent or household.

- It's required by law – The information you provide is combined with responses provided by your neighbors and other households across the country, to provide summary statistical data that are used by various local, state and federal agencies.

### It's important

- Census affects funding in your community. Census data directly affect how more than \$300 billion per year in federal and state funding is allocated to communities for neighborhood improvements, public health, education, transportation and much more. That's more than \$3 trillion over a 10-year period. Spending just a few minutes to fill out your census form will help ensure your community gets its fair share of federal and state funding.
- Census affects your voice in Congress. Mandated by the U.S. Constitution, the census is also used to apportion seats in the U.S. House of Representatives and to redistrict state legislatures.
- Census affects your representation in state and local government. Census data are used to define legislature districts, school district assignment areas and other important functional areas of government.
- Census informs your community's decisions the census is like a snapshot that helps define who we are as a nation. Data about changes in your community are crucial to many planning decisions, such as where to provide services for the elderly, where to build new roads and schools, or where to locate job training centers.

### 2010 Census Timeline

<b>Fall 2009</b>	Recruitment begins for census takers needed for peak workload in 2010.
<b>February - March 2010</b>	Census questionnaires are mailed or delivered to households.
<b>April 1, 2010</b>	Census Day
<b>April – July 2010</b>	Census takers visit households that did not return a questionnaire by mail.
<b>December 1, 2010</b>	By law, Census Bureau delivers population counts to President for apportionment.
<b>March 1, 2011</b>	By law, Census Bureau completes delivery of redistricting data to states.

## Statistical Abstract of the United States: 2009

The U.S. Census Bureau recently released the *Statistical Abstract of the United States: 2009*. The Statistical Abstract is known as the Nation's Data Book and has been published since 1878. It is the standard summary of statistics on the social, political, and economic organization of the United States and has been designed as a convenient reference and a guide to other statistical sources. Data within the publication is gathered from many statistical publications, both government and private. Statistics for the 2009 edition are the most recent available as of the summer of 2008. Emphasis in the Statistical Abstract is given to national data, however many tables present data for regions and individual states with a smaller number of tables providing data for metropolitan areas and cities.

### Selected Statistics – With a Special Focus on Utah

#### Population Characteristics

In 2000 the nation's population was 79.0% urban. Utah was 88.2% urban in 2000, ranking the state ninth among the 50 states and the District of Columbia. The District of Columbia ranked first with 100% of the population being urban, followed by California (94.4%), New Jersey (94.4%), Hawaii (91.5%), and Nevada (91.5%). Vermont had the lowest percentage of its population living in an urban setting with 38.2%.

In 2006 the rate of the nation's population age five and over who spoke a language other than English at home was 19.7%, an increase from 2000 when the share was 17.9%. Utah's ratio was 14.3% in 2006, an increase from 2000 when the share was 12.5%. California, at 42.5% had the highest share of people age five and over who spoke a language other than English at home, followed by New Mexico (36.5%), Texas (33.8%), New York (28.8%), and Arizona (28.0%).

The U.S. foreign-born population in 2006 was 12.5% of the total U.S. population. California, with 27.2%, had the highest share of the total population being foreign-born, followed by New York (21.6%), New Jersey (20.1%), Nevada (19.1%), and Florida (18.9%). In Utah, 8.3% of the total population was foreign-born and ranked 21st in the nation. Of the foreign-born population in the U.S. in 2006, 25.3% entered the nation in the year 2000 or later. Kentucky with 43.5% had the largest percentage of its foreign-born population entering the U.S. in the year 2000 or later. Following closely behind were North Dakota (42.5%), Alabama (42.5%), Tennessee (40.8%), and Mississippi (39.5%). In Utah, 30.9% of the foreign-born population entered the U.S. in the year 2000 or later, which ranked 23rd in 2006.

#### Vital Statistics

The marriage rate in the U.S. for 2007 was 7.3 per 1,000 persons, compared with rates of 9.8 and 8.3 in 1990 and 2000 respectively. In 2007, Utah had a marriage rate of 8.6 per 1,000 persons, compared to 11.2 in 1990 and 11.1 in 2000; ranking Utah 10th

among the fifty states and the District of Columbia. Nevada ranked first with 49.3 followed by Hawaii (21.3), Arkansas (11.9), Tennessee (10.6), and Idaho (10.3). The District of Columbia was ranked last with a marriage rate of 4.2.

The national divorce rate declined from 4.7 in 1990, to 4.1 in 2000, to 3.6 in 2007. The divorce rate in Utah in 2007 was 3.4 per 1,000 persons, lower than the national average. Utah ranked 27th highest among 45 states and the District of Columbia for which data were collected. Nevada had the highest divorce rate in 2007 with 6.5 divorces per 1,000 persons. Nevada was followed by Arkansas (5.9), Wyoming (5.5), Oklahoma (5.2), and West Virginia (5.0). The District of Columbia had the fewest divorces with a rate of 1.6.

#### Health and Nutrition

In 2006, Utah had the lowest rate of cigarette smoking in the nation at 9.8% of the population age 18 and older. This is lower than the national rate of 20.2%. The states with the lowest rate of cigarette smoking are Utah, followed by California (14.9%), Idaho (16.8%), Connecticut (17.0%), and Washington (17.1%). The rate for cigarette smoking varied among the genders, with a higher rate among males for all the states except two (Montana and West Virginia).

Utah's 2006 physician to resident population ratio was 10th lowest in the nation, at 212 physicians per 100,000 resident population, with the national rate at 267. Utah's 2006 nurse to resident population ratio was the sixth lowest in the nation, at 647 nurses per 100,000 resident population, with the national rate at 807.

#### Geography and Environment

In 2004, 57.4% of Utah's land was owned by the Federal government, ranking the state third among the 50 states and the District of Columbia. Nevada ranked first with 84.5%, followed by Alaska (69.1%), Utah (57.4%), Oregon (53.1%), and Idaho (66.5%).

## Statistical Abstract of the United States: 2009

The highest recorded temperature in Utah through 2003 was 117 degrees (F) in St. George on July 5, 1985. The lowest was -69 degrees (F) in Peter's Sink on February 1, 1985, which is the third coldest temperature recorded in the nation behind Prospect Creek, AK -80 degrees (F), and Rogers Pass, MT -70 degrees (F).

### Elections

In 2006, of the 1,753,000 people who were of voting-age in Utah 53.1% were registered and 34.4% voted, making Utah the 50th state in the percent of the voting-age population that voted in the 2006 election. The nation had 135,847,000 people of voting-age with 61.6% registered to vote and 43.6% who voted.

In 2006, 22 women held a state public office in Utah all of which are in the State Legislature. Women represents 21.2% of the Utah State Legislature ranking 26<sup>th</sup> in the nation. The national percentage in 2006 was 22.9%. Maryland had the highest percentage of women serving in state public office with 35.6% followed by Delaware (33.9%) and Arizona, Nevada, Vermont, and Washington with 33.3% each.

### Arts, Recreation, and Travel

There were 275.6 million visitors to National Parks in the United States in 2007. California had the largest number of National Park visitors (34.4 million), followed by the District of Columbia (31.7 million). Virginia ranked third with 22.8 million visitors, with North Carolina (19.3 million), and New York (15.8 million) rounding out

the top five. Utah had 8.1 million National Park visitors, ranking 9<sup>th</sup> in the nation.

National Parks in the United States covered 84.3 million gross area acres in 2007. Alaska had the largest National Park acreage, 54.6 million gross area acres. This is 65% of the total acreage in the nation. California had the second largest National Park acreage (8.1 million), followed by Arizona (3.0 million), Florida (2.6 million), and Wyoming (2.4 million). Utah ranked sixth with 2.1 million acres.

In 2006, Utah had 905,000 visitors come to its state parks and recreation areas. These visitors brought in revenue of \$11.5 million to the state. Revenues comprised 39.3% of total operating expenditures of these parks and areas. Nationally, revenue comprised 38.7% of operating expenditures.

### Social Insurance & Human Services

There was \$181.6 billion given in individual charitable contributions from 41.4 million returns in the United States in 2005. This averages to \$4,388 per return. Wyoming had the largest average of individual charitable contributions with \$10,066, followed by the District of Columbia (\$7,105), Utah (\$6,925), Arkansas (\$6,535), and Oklahoma (\$6,213).

For more information visit the U.S. Census Bureau Statistical Abstract website at <http://www.census.gov/compendia/statab/index.html>.

## Affiliates Corner: Utah College of Applied Technology

**UCAT History:** The Utah College of Applied Technology (UCAT) was established in June 2001, during a special session of the Utah Legislature. UCAT was the state's tenth and newest institution of the

Utah System of Higher Education. UCAT consisted of ten UCAT campuses: Bridgerland in Logan, Davis in Kaysville, Ogden Weber in Ogden, Uintah Basin in Roosevelt, Central in Richfield, Mountainland in Orem, Southeast in Price/Blanding, Southwest in Cedar City, Dixie in St. George, and Salt Lake/Tooele in Salt Lake City.

Over the past eight years many changes have occurred to UCAT, including the ability to offer Associate of Applied Technology (AAT) degrees. Central Applied Technology College was merged with Snow College, Southeast College of Applied Technology was merged with College of Eastern Utah, and most recently the 2009 Legislature (effective July 1, 2009) modified the governance structure for post-secondary career and technical education by separating UCAT from the Board of Regents. UCAT no longer offers AAT degrees, and the Salt Lake County portion of the Salt Lake/Tooele campus was transferred to Salt Lake Community College. The Tooele County portion of Salt Lake/Tooele campus was retained as the Tooele Campus.

UCAT, now under the governance of its Board of Trustees, is Utah's resource for preparing the state's 21st Century workforce. The eight applied technology college campuses offer 77 Career Programs, and within each program there are many more career opportunities. All UCAT campuses are fully accredited by the Council on Occupational Education (COE) and many programs hold additional accreditations.

**Building Utah's Economy:** UCAT's mission is to provide, through its regional campuses, market-driven career and technical education to both secondary and adult students to meet the demand by Utah employers for technically skilled workers. Each UCAT campus places a strong emphasis on providing programs that prepare students for high-wage, high-demand jobs. This is accomplished through competency-based education and training programs, which may be long-term, short-term, apprenticeship, or custom-designed for individual employer needs. Most of the programs are offered in an open-entry, open-exit format providing flexibility for students and employers. Students are assisted in acquiring the basic skills necessary to succeed in these technical training programs. UCAT prepares students to enter, re-enter, upgrade, or advance in the workplace, which contributes to economic development and improves the quality of life for Utah citizens.

**Open-entry, open-exit:** A method of instructional delivery that allows for flexible scheduling in response to individual student needs or requirements and demonstrated competency when knowledge and skills have been mastered.

**Competency-based:** Mastery of subject matter of skill level, as demonstrated through business and industry approved standards and assessments, achieved through participation in a hands-on learning environment, and which is tied to observable, measurable performance objects.

**Student Access:** UCAT's flexible schedule is ideal for working adults with limited time and for high school students desiring to supplement their high school schedule. High School students enroll tuition-free, and tuition for adults is minimal. Students may register at any time during regular business hours and receive instruction in a self-paced format. The UCAT campuses are strategically located throughout the state. Visit our website at [www.ucat.edu](http://www.ucat.edu) for further information.

**UCAT Growth:** During the 2007-2008 year, UCAT accomplished the following: Total budget-related student headcount was up nearly 12%. Membership hours generated increased by 4.3%. UCAT campuses and affiliated Custom Fit partners served approximately 60,000 people last year. Custom fit provided training to more than 19,000 current employees in 1,116 Utah companies. The Jobs Now program trained 1,072 individuals to fill immediate critical workforce needs.

UCAT Programs	
Accounting	Information Technology
American Sign Language	Interior Design
Apprenticeship	Law Office File Clerk
Auto Collision Repair	Lean Principles
Automotive Technician	Machinist: CNC & Conventional
Barbering	Maintenance Mechanic Apprenticeship
Biomedical Equipment Technician	Materials Handling
Bricklaying/Masonry	Media Design Technology
Building Construction	Medical Assisting
Business Administrative Support I & II	Medical Billing and Coding
Cabinetmaking	Medical Office Administration
Carpentry	Medical/Clinical Lab Technician
CDL - Commercial Drivers License	Medical Transcription
Central Sterilization Processing Technician	Mining MSHA Certification/Program
Certified Nursing Assistant (CNA)	Nail Technician

### Demographic and Economic Analysis Section

Juliette Tennert, DEA Manager  
Walter Busse, Economist  
Peter Donner, Senior Economist  
Melissa Glosenger, Research Analyst  
Effie Johnson, Research Analyst  
David Stringfellow, Tax Economist

The Demographic and Economic Analysis (DEA) section supports the mission of the Governor's Office of Planning and Budget to improve decision making by providing economic and demographic data and analysis to the governor and to individuals from state agencies, other government entities, businesses, academia, and the public. As part of this mission, DEA functions as the lead agency in Utah for the U.S. Census Bureau's State Data and Business and Industry Data Center (SDC/BIDC) programs. While the 35 SDC and BIDC affiliates listed in this newsletter have specific areas of expertise, they can also provide assistance to data users in accessing Census and other data sources.

**State Data Center**  
**Phone: 801-538-1036**  
**Fax: 801-538-1547**  
**Email: [dea@utah.gov](mailto:dea@utah.gov)**

For a free subscription to this quarterly newsletter, and for assistance accessing other demographic and economic data, contact the State Data Center. This newsletter and other data are available via the Internet at DEA's web site:
