Jeanine Taylor, Economist, Population Estimates and Projections

Brenda Wadsworth, Research Analyst, State Data Center Contact Person

INTRODUCTION

This publication marks the first time that the Governor's Office of Planning and Budget (GOPB) has undertaken the task of producing projections for every city in the state. The effort was a collaborative effort between GOPB and local government, and is intended as another positive step in meeting the data needs of local governments and improving cooperation and coordination.

GOPB produced projections for specific cities at the request of local governments and state agencies three years ago. These subcounty projections were needed for planning purposes, and many entities thought that GOPB was best suited to undertake the responsibility. As the number of requests increased, GOPB decided that producing projections for all cities in the state was the logical progression of this process.

This report is consistent with the state, district and county projections found in the projections report, *State of Utah Economic and Demographic Projections 1994*.

FORMAT OF REPORT

This report presents the city projections in two separate tables. Table 1 presents the cities alphabetically, while Table 2 presents cities by county. Unincorporated areas are also presented in Table 2.

METHODOLOGY

For all but the Wasatch Front Multi-County District counties of Davis, Morgan, Salt Lake, Weber, and Tooele counties, the initial methodology utilized to allocate cities within a county involved a simple average of (1) the 1990 Census city share as a percentage of the county, and (2) an average 10 year growth

rate (1970-90). The city projections were then controlled to the county total population previously produced by the UCAPE Model (See Appendix in *State of Utah Economic and Demographic Projections 1994* for further details). The only adjustment to this methodology was that no city was allowed to decline in population over the projection period.

The draft city projections were then distributed to representatives of the Associations of Governments for their comment and review. The representatives consulted with local government officials, and in some instances, did quite detailed analysis of the proposed projections. In a number of cases, the representatives offered alternatives to the initial projections. These suggestions have been incorporated into this report.

CITIES IN THE WASATCH FRONT MULTI-COUNTY DISTRICT (Davis, Morgan, Salt Lake, Tooele and Weber)

Since the Wasatch Front Regional Council (WFRC) has historically produced city projections for the Wasatch Front Multi-County District, GOPB requested that WFRC produce new projections to be incorporated into this report. The WFRC's methodology used takes into account land use issues, buildout, and potential traffic patterns as they impact the allocation of population within a county.

Because some cities' boundaries for 1990 Census purposes do not correspond exactly with the WFRC's traffic zone configuration, there may be small inconsistencies between the 1990 Census count and the 2000 projection. Also, the counties of Davis and Tooele present populations for the year 2000 which are slightly different than GOPB's published projections. These differences are due to the current rapid growth, which was not adequately reflected in the previously

published county projections. The projection totals for the years 2010 and 2020 remain the same as GOPB's published report.

ASSOCIATION OF GOVERNMENTS INVOLVEMENT

Representatives from the Association of Governments (AOGs) have been very supportive, and have spent much time and effort to make sure that the city level projections published in this report are as reasonable as possible. GOPB would like to acknowledge the AOGs and express appreciation for their cooperation and support on this project.

- (1) City boundary crosses county lines.
- (2) The Davis County 2000 projection, developed by the Wasatch Front Regional Council, is slightly different from GOPB's projection due to expectations expressed by city representatives.
- (3) Hill Field is added to Davis County's unincorporated area.
- (4) Wasatch Front Regional Council does not include Alta in its city projections. In lieu of a projection the 1990 Census number was held constant.
- (5) Tooele County 2000 projection is slightly different from GOPB's projection due to the expectations expressed by city representatives. GOPB was involved in the development of the projection in this report.
- (6) Wasatch Front Regional Council does not include Ophir in its city projections. In lieu of a projection the 1990 Census number was held constant.
