This is an addendum to Utah Leads Together 2.0. The Governor’s Office of Management and Budget and the Utah Department of Health, with assistance from Leavitt Partners, have developed recommendations to support the roadmap for reactivation of the Utah economy while stabilizing public health.

## High Risk

- General public and employers take extreme precautions
- Face coverings worn in public settings where other social distancing measures are difficult to maintain
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds
  - Use hand sanitizer frequently
  - Avoid touching your face
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands)
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces)
  - Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department
- Do not shake hands
- In-person interactions limited to individual households; Interactions in groups of 10 or fewer
- Increase virtual interactions
- Leave home infrequently; stay 6 feet away from others when outside the home
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces)
- Give sick family members their own room if possible and keep the door closed
- Have only one family member care for the sick individual
- Schools closed
- Employees and volunteers of businesses operate remotely, unless not possible

## Moderate Risk

- General public and employers take extreme precautions
- Face coverings worn in public settings where other social distancing measures are difficult to maintain
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds
  - Use hand sanitizer frequently
  - Avoid touching your face
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands)
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces)
  - Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department
- Do not shake hands
- In-person interactions in decreased group sizes that enable all social distancing guidelines to be maintained; social interactions in groups of 20 or fewer
- Increase virtual interactions
- Leave home infrequently; stay 6 feet away from others when outside the home
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces)
- Give sick family members their own room if possible and keep the door closed
- Have only one family member care for the sick individual
- Schools closed
- Employees and volunteers of businesses operate remotely, unless not possible

## Low Risk

- General public and employers take reasonable precautions
- Face coverings worn in public settings where social distancing measures are difficult to maintain
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds
  - Use hand sanitizer frequently
  - Avoid touching your face
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands)
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces)
  - Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department
- Do not shake hands
- In-person interactions in decreased group sizes that enable all social distancing guidelines to be maintained; social interactions in groups 50 or fewer
- Increase virtual interactions
- Leave home infrequently; stay 6 feet away from others when outside the home
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces)
- Give sick family members their own room if possible and keep the door closed
- Have only one family member care for the sick individual
- Schools closed
- Employees and volunteers of businesses operate remotely, unless not possible

## New Normal Risk

- General public and employers take reasonable precautions
- All businesses operating
- Schools are open
- Traveling restrictions mostly lifted, self-monitor for 14 days upon return; avoid areas of high transmission
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, handrails, shopping carts, check-out counters, restroom surfaces)
# Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

## High Risk

- Employers evaluate workforce strategy, concerns, and enact strategies to minimize economic impact
- Encourage high-contact businesses not to operate
- Symptom checking in public and business interactions (checklist or verbal), including temperature checks when feasible
- Design spaces to maintain 6-foot distance between individuals
- Limit travel to essential travel only, quarantine 14 days upon return from high-risk areas (this quarantine protocol does not apply to an individual who travels out of state pursuant to the individual’s regular and ordinary duties as an employee of a transportation business or entity)

## Moderate Risk

- Employers evaluate workforce strategy, concerns, and enact strategies to minimize economic impact
- High-contact businesses can operate under strict protocols
- Restaurants are open for dine-in services with strict requirements
- Symptom checking in public and business interactions (checklist or verbal), including temperature checks when feasible
- Design spaces to maintain 6-foot distance between individuals
- Limit out-of-state travel, quarantine 14 days upon return from high-risk areas (this quarantine protocol does not apply to an individual who travels out of state pursuant to the individual’s regular and ordinary duties as an employee of a transportation business or entity)

## Low Risk

- Employers exercise discretion with remote work and returning to onsite work
- Symptom checking in public and business interactions (checklist or verbal), including temperature checks when feasible
- Design workspaces to maintain 6-foot distance between individuals. If impossible to do so, a partition must be installed for separation or a face covering must be worn
- Reconsider any nonessential travel into areas with widespread community transmission of COVID-19
- In the state of Utah, adhere to guidelines of geographic area currently in

## New Normal Risk

- Employers exercise discretion with remote work and returning to onsite work
- Symptom checking in public and business interactions (checklist or verbal), including temperature checks when feasible
- Design workspaces to maintain 6-foot distance between individuals. If impossible to do so, a partition must be installed for separation or a face covering must be worn
- Reconsider any nonessential travel into areas with widespread community transmission of COVID-19
- In the state of Utah, adhere to guidelines of geographic area currently in

---

2 Essential travel means to: safely relocate by an individual whose home or residence is unsafe, including individuals who have suffered or are at risk of domestic violence, or for whom the safety, sanitation or essential operations of the home or residence cannot be maintained; care for a family member or friend in the same household or another household, including transporting family members or friends; transport a child according to existing parenting time schedules or other visitation schedules pertaining to a child in need of protective services; care for pets, including travel to a veterinarian; seek emergency services; obtain medications and medical services; donate blood; obtain food, including delivery or carry-out services, beverages (alcoholic and non-alcoholic), and other grocery items, gasoline, supplies required to work from home, and products needed to maintain the safety, sanitation, and essential operation of homes and residences, businesses, and personally owned vehicles, including automobiles and bicycles; perform work if you cannot telework; transport/deliver essential goods; engage in recreational and outdoor activities; laundromats and dry cleaners; return to a home or place of residence

## Tiered Guidelines for High-Risk Individuals

High-risk individuals are defined as people 65 years and older, people who live in a nursing home or long-term care facility, people of all ages with underlying medical conditions, including lung disease or moderate to severe asthma, people who have serious heart conditions, people who are immunocompromised (many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications), people with severe obesity, diabetes, chronic kidney disease undergoing dialysis, or liver disease.

### High Risk
- Face coverings worn at all times in public setting
- Limit travel to only essential travel, as defined on page 3; if telework is not possible, limit travel to work-related travel only
- Limit visiting friends or family without urgent need
- Limit physical interactions with other high-risk individuals, except for members of your household or residence
- Limit attending gatherings of any number of people outside your household or residence
- Do not visit hospitals, nursing homes, or other residential care facilities
- Do not interact with symptomatic individuals
- Social interactions allowable in larger groups, with strict hygiene measures and symptom monitoring
- Do not interact with symptomatic individuals

### Moderate Risk
- Face coverings worn at all times in public setting
- Limit travel to only essential travel, as defined on page 3; if telework is not possible, limit travel to work-related travel only
- Limit visiting friends or family without urgent need
- Limit physical interactions with other high-risk individuals, except for members of your household or residence
- Limit attending gatherings of any number of people outside your household or residence
- Do not visit hospitals, nursing homes, or other residential care facilities
- Do not interact with symptomatic individuals
- Social interactions allowable in larger groups, with strict hygiene measures and symptom monitoring
- Do not interact with symptomatic individuals

### Low Risk
- Face coverings worn in settings where other social distancing measures are difficult to maintain
- For any travel, use appropriate precautions; avoid high-risk areas
- Limit physical interactions with other high-risk individuals, who are symptomatic
- Interactions allowable in larger groups, with strict hygiene measures and symptom monitoring
- Do not interact with symptomatic individuals

### New Normal Risk
- For any travel, use appropriate precautions; avoid high-risk areas
- Limit physical interactions with other high-risk individuals, who are symptomatic
- Interactions allowable in larger groups, with strict hygiene measures and symptom monitoring
- Do not interact with symptomatic individuals

### Actions by High-Risk Individuals
- Avoid physical interactions with high-risk individuals as much as possible
- No visits to hospitals, nursing homes, and other residential care facilities
- Targeted testing for those working with high-risk individuals

### Interactions with High-Risk Individuals
- Avoid physical interactions with high-risk individuals as much as possible
- No visits to hospitals, nursing homes, and other residential care facilities
- Targeted testing for those working with high-risk individuals

### Households with High-Risk Individuals
- For those living with a high-risk individual, household members should conduct themselves as if they are a significant risk to the high-risk individual
- Wash hands before interacting with high-risk household members, including before feeding or caring for the person
- If possible, provide a protected space for high-risk household members, and ensure all utensils and surfaces are cleaned regularly
- High-risk populations should take extra precaution to avoid close contact with multiple people, including having the same caretakers whenever possible
- Those who are, or work with, vulnerable populations should undergo daily screening/symptom monitoring and be tested if they develop COVID-19 symptoms
- Consider providing additional protections or more intensive care for high-risk household member
- Additional CDC guidance for high-risk populations can be found [here](https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/what-you-can-do.html)

\[
\text{Page 6 | Version 4.5 (5/26/2020)}
\]
### High Risk
- Symptom checking of participants prior to entering the vehicle (checklist or verbal), including temperature checks when feasible
- Wash or sanitize hands before entering the vehicle and after leaving the vehicle
- Appointments scheduled with enough time allowed to disinfect all surfaces between students
- Both students and instructors wear face coverings
- Maximum 2 students and 1 instructor per vehicle
- No food or drinks in the vehicle
- When services are not being directly provided, 6 feet of physical distance must be maintained. This includes student and family waiting areas and between scheduled drive times
- Share student and parent documents electronically; avoid handling and sharing paperwork
- High-risk instructors and students follow recommendations for high-risk individuals

### Moderate Risk
- Follow all guidelines outlined on page 5 & page 11
- Classes limited to distance learning
- All asymptomatic employees and students should stay off campus, or self-isolate or quarantine if residing on campus
- Follow state and local guidelines for activities and environments (i.e. events, food services, travel, childcare and other defined categories)
- Limit campus visitors (between living unites, from other dorm halls, and from off campus)
- Campus visitors are notified of COVID-19 prevention guidelines
- For residential campuses:
  - Provide isolation or quarantine facilities for students showing symptoms or students with positive tests and include

### Low Risk
- Symptom checking of participants prior to entering the vehicle (checklist or verbal), including temperature checks when feasible
- Wash or sanitize hands before entering the vehicle and after leaving the vehicle
- Appointments scheduled with enough time allowed to disinfect all surfaces between students
- Both students and instructors wear face coverings
- Maximum 3 students and 1 instructor per vehicle
- No food or drinks in the vehicle
- When services are not being directly provided, 6 feet of physical distance must be maintained. This includes student and family waiting areas and between scheduled drive times
- Share student and parent documents electronically; avoid handling and sharing paperwork
- High-risk instructors and students follow recommendations for high-risk individuals

### New Normal Risk
- Follow all guidelines outlined on page 5 & page 11
- Campuses may be open for in-person students and faculty with increased cleaning and hygiene regimen
- In cooperation with the Utah System of Higher Education, each institution will develop individualized plans for repopulating campuses, monitoring for incidences, containing outbreaks, and reclosing if necessary
- Monitor employees and students for symptoms
- Employees and students encouraged to use Healthy Together mobile app to help contain the spread of COVID-19

### Higher Education Institutions
- Follow all guidelines outlined on page 5 & page 11
- Classes limited to distance learning
- Follow state and local guidelines for activities and environments (i.e. events, food services, travel, childcare and other defined categories)
- Limit campus visitors (between living unites, from other dorm halls, and from off campus)
- Campus visitors are notified of COVID-19 prevention guidelines
- For residential campuses:
  - Provide isolation or quarantine facilities for students showing symptoms or students with positive tests and include

- All symptomatic employees and students should stay off campus, or self-isolate or quarantine if residing on campus

</tbody>
</table>

### Pools, Water Parks, Spas

- Follow all guidelines outlined on page 5 & page 11
- Pools are closed
- Pools are limited to lap swim only, one swimmer per lane; no congregating on pool decks
- Swim team is allowed as long as social distancing is allowed on pool deck
- Symptom screening
- Lap swimming resumes to normal capacity

- Follow all guidelines outlined on page 5 & page 11
- Open plunge operates at a reduced capacity that enables appropriate social distancing to be maintained between household groups on pool deck
- 6-foot social distancing between household groups is maintained on pool deck
- Resume normal operations

- Follow all guidelines outlined on page 5 & page 11
- Resume normal operations

- Follow all guidelines outlined on page 5 & page 11
- Resume normal operations

<sup>8</sup> Face coverings are extremely important in the retail setting, as customers are passing one another with high frequency.
### Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

#### High Risk

- Consider installing a clear plastic partition between cashier and customer where it is not possible to maintain 6 feet of distance
- Deliver products through curbside pick-up or delivery
- Make regular announcements to remind customers to follow physical distancing guidelines

**Specific Guidance for Grocery & Pharmacy**

- Separate order and delivery areas to keep customers from waiting too long in confined areas together
- Prevent people from self-serving any food items that are ready to eat and are not prepackaged; does not include fresh produce
- Only make bulk items available if they are individually packaged
- Do not allow individuals to bring their own bags, mugs, or other reusable items from home
- If possible, waive prescription delivery fees
- Consider installing a clear plastic partition between cashier and customer where it is not possible to maintain 6 feet of distance
- Deliver products through curbside pick-up or delivery
- Make regular announcements to remind customers to follow physical distancing guidelines

**Specific Guidance for Grocery & Pharmacy**

- Separate order and delivery areas to keep customers from waiting too long in confined areas together
- Prevent people from self-serving any food items that are ready to eat and are not prepackaged; does not include fresh produce
- Only make bulk items available if they are individually packaged
- Do not allow individuals to bring their own bags, mugs, or other reusable items from home
- If possible, waive prescription delivery fees
- Consider installing a clear plastic partition between cashier and customer where it is not possible to maintain 6 feet of distance
- Deliver products through curbside pick-up or delivery
- Make regular announcements to remind customers to follow physical distancing guidelines

#### Moderate Risk

- Consider installing a clear plastic partition between cashier and customer where it is not possible to maintain 6 feet of distance
- Deliver products through curbside pick-up or delivery
- Make regular announcements to remind customers to follow physical distancing guidelines

- Make regular announcements to remind customers to follow physical distancing guidelines

#### New Normal Risk

- Industry open with precautions for staff and guests as outlined in general guidelines
- Follow all employer guidelines outlined on page 11

**Hospitality, Tourism & Accommodations**

Limited operations of this industry. Hotels and other accommodations take extreme safety precautions for both staff and guests

- Follow all employer guidelines outlined on page 11
- Staff and guests wear face coverings
- Maintain signage to remind groups to stand at least 6 feet apart and avoid congregating in common areas
- Social distancing maintained in all common areas or meeting rooms
- Digital check-in and checkout encouraged
- Consider installing plexiglass partition in areas coming into close contact with guests (e.g. registration, concierge, valet desks)
- Symptomatic guests should stay in their room and wear a face covering anytime they leave the room
- Consider designating one staff member to attend to sick guests
- Launder all exposed linens and cleaning supplies separately

**Hotels and other accommodations take extreme safety precautions for both staff and guests**

- Follow all employer guidelines outlined on page 11
- Staff and guests wear face coverings
- Maintain signage to remind groups to stand at least 6 feet apart and avoid congregating in common areas
- Social distancing maintained in all common areas or meeting rooms

</tbody>
</table>

**Note:** The table contains guidelines for events, cultural arts, and entertainment, including sporting events, concerts, rodeos, parades, convention centers, theatres, museums, zoos, aquariums, aviaries, botanical gardens, libraries, and indoor arenas. The guidelines cover high-risk, moderate-risk, and low-risk scenarios, with specific actions and controls designed to maximize public health and economic reactivation. The emphasis is on protocols to ensure safe distancing and adherence to increased cleaning regimens and operational measures. The guidelines are dynamic and may require continuous monitoring and updates based on public health conditions and organizational capabilities.
### High Risk

- Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g. museums, zoos, aquariums, aviaries, botanical gardens)
- Congregating at any point is not allowed
- Encourage contactless payment; disinfect between transactions and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked (checklist or verbal), including temperature checks when feasible
- Electronic tickets and playbills encouraged in place of paper

### Moderate Risk

(demonstrated on digital seat map) to ensure safe radius
- Set an established window time for high-risk groups to come in without pressure from crowds and/or separate entrances and queues
- Limit the number of people in a confined area to enable adequate distancing at all times
- Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g. museums, zoos, aquariums, aviaries, botanical gardens)
- Congregating at any point is not allowed
- Encourage contactless payment; disinfect between transactions at facility stores/gift shops and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked (checklist or verbal), including temperature checks when feasible
- Dedicated staff for sanitizing high-touch areas

**Concessions:**
- Serving and seating protocols consistent with restaurant guidance
- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

### Low Risk

- A 6-foot distance must be maintained between household groups at all times including while seated
- For reserved-seating facilities, facility capacity is dependent on ability to block reserved seats (demonstrated on digital seat map) to ensure safe radius
- Set an established window time for high-risk groups to come in without pressure from crowds and/or separate entrances and queues
- Limit the number of people in a confined area to enable adequate distancing at all times
- Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g. museums, zoos, aquariums, aviaries, botanical gardens)
- Congregating at any point is not allowed
- Encourage contactless payment; disinfect between transactions at facility stores/gift shops and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked (checklist or verbal), including temperature checks when feasible
- Dedicated staff for sanitizing high-touch areas

**Concessions:**
- Serving and seating protocols consistent with restaurant guidance
- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

### New Normal Risk

- A 6-foot distance must be maintained between household groups at all times including while seated
- For reserved-seating facilities, facility capacity is dependent on ability to block reserved seats (demonstrated on digital seat map) to ensure safe radius

- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations
### High Risk

**Personal Services** (including barbers, cosmetologists, body artists, nail technicians, massage therapists, tanning, etc.)

- Extreme limitations of this industry
  - Follow all employer guidelines outlined on page 11
  - Business that rely on close human interaction encouraged not to stay open
  - Symptom checking (checklist or verbal), including temperature checks when feasible in all interactions
  - Face coverings worn by both service provider and client

- Industry open under strict hygiene protocols. Service provider and customer wear face coverings. Meticulous monitoring of symptoms
  - Follow all employer guidelines outlined on page 11
  - Both service provider and client wear face coverings. Exception given for clients when mask interferes with service
  - Symptom checking (checklist or verbal), including temperature checks when feasible, of all staff at the beginning of each shift, with a log that can be made available for inspection by health department
  - Customers must have their symptoms checked before services are rendered
  - Appointments scheduled with enough time allowed to disinfect all procedure surfaces between services
  - Service provider maintains log of appointments with customer contact information to assist with contact tracing efforts
  - When services are not being directly provided, 6 feet of physical distance must be maintained. This includes waiting areas and between clients at all times
  - Contactless payment encouraged; financial equipment disinfected after each transaction

### Moderate Risk

- Home Repair
  - Operates under the General Guidelines for Employers. Strict hygiene
    - Follow all employer guidelines outlined on page 11
    - Inquire if homes have symptomatic individuals and exercise caution
    - Monitor symptoms of employees
    - Wash or sanitize hands before and after leaving a home

- Operates under the General Guidelines for Employers. Strict hygiene
  - Follow all employer guidelines outlined on page 11
  - Inquire if homes have symptomatic individuals and exercise caution
  - Monitor symptoms of employees
  - Wash or sanitize hands before and after leaving a home

### Low Risk

- Industry open under strict hygiene protocols. Service provider and customer wear face coverings. Meticulous monitoring of symptoms
  - Follow all employer guidelines outlined on page 11
  - Both service provider and client wear face coverings. Exception given for clients when mask interferes with service
  - Symptom checking (checklist or verbal), including temperature checks when feasible, of all staff at the beginning of each shift, with a log that can be made available for inspection by health department
  - Screen clients upon entering the facility with a questionnaire asking about symptoms, travel, and any sicknesses in the home
  - Procedure/service area surfaces are disinfected between each client
  - Appointments scheduled with enough time allowed to disinfect all procedure surfaces between services
  - Service provider maintains log of appointments with customer contact information to assist with contact tracing efforts
  - When services are not being directly provided, 6 feet of physical distance must be maintained. This includes in waiting areas and between clients at all times
  - Contactless payment encouraged; financial equipment disinfected after each transaction

### New Normal Risk

- Industry open with strict hygiene regimen and symptom monitoring
  - Follow all employer guidelines outlined on page 11
  - Same as high-risk column, except that employers do not need to actively monitor symptoms; employees self-report

General Guidelines for Employers

Best Practices for Employers

- Those who are, or work with, high-risk populations, should undergo daily screening/symptom monitoring, and be tested if they begin to experience COVID-19 symptoms. High-risk populations should take extra precautions to avoid close contact with multiple people.
- Use online conferencing, email, or telephone in place of in-person meetings, even when people are in the same building.
- Employees and customers should not congregate in groups; if your business involves a waiting area, customers should wait outside or in their cars.
- Encourage contactless pay options if possible; otherwise immediately disinfect transaction equipment.
- Make regular announcements to remind employees and customers to follow distancing guidelines. Use floor markings to mark appropriate physical distance where appropriate.
- Encourage digital files rather than paper formats (e.g. documentation, invoices, inspections, forms, agendas).
- Consider what reserve supplies may be necessary to obtain (e.g., cleaning supplies, gloves or other protective equipment).
- Establish and maintain open dialogue with local communities, including key vendors and suppliers, exploring contingencies and sharing appropriate decisions about foodservice, transportation, and other services.
- Identify a workplace coordinator who will be responsible for COVID-19 issues and their impact in the workplace.
- If relevant, update emergency communication plan with key contacts and backups, chain of communications, and contingencies and sharing appropriate decisions about foodservice, transportation, and other services.
- Ensure every employee's contact information and emergency contact details are up to date; ensure a plan is in place to reach employees quickly.
- Educate workforce about the threat of the COVID-19 pandemic, what the business is doing, and what they should do to protect themselves and their families.
- Prepare for absenteeism—not only sick employees will stay home; others may need to care for the sick or children if schools close; those employees should notify their supervisors.
- Provide signage at each public entrance to inform all employees and customers that they should:
  - Wear face coverings.
  - Wash hands often, and for at least 20 seconds.
  - Avoid hand shaking or unnecessary physical contact.
  - Sneeze/cough into cloth, tissue, elbow or sleeve (not hands).
  - Avoid hand touching or unnecessary physical contact.
  - Wash hands often, and for at least 20 seconds.
  - Wear face coverings.
  - Have a fever of 100.4 degrees Fahrenheit or above.
  - Cough, trouble breathing, sore throat, muscle aches or pains, sudden changes in smell or taste, or feel generally unwell.
  - Maintain a minimum 6-foot distance.

Cleaning & Hygiene Guidelines for Employers

- Promote etiquette for coughing, sneezing, and handwashing; avoid touching face, especially eyes, nose, and mouth; place posters that encourage hand and respiratory hygiene.
- Face coverings should be worn by employees and patrons, especially when difficult or impossible to maintain 6-foot distance.
- Ensure adequate air circulation and post tips on how to stop the spread of germs.
- When possible, discourage sharing of work tools and equipment.
- Make a list of high-touch surfaces requiring routine disinfecting and perform routine environmental cleaning (e.g., elevator buttons, workstations, countertops, handrails, doorknobs, breakrooms, bathrooms, common areas), either twice a day or after each use. Keep a logbook of cleaning regimen. Those cleaning should:
  - Wear gloves.
  - Prior to disinfecting, clean surfaces with soap and water if soiled.
  - Use EPA-approved disinfectant, industrial cleaner, diluted bleach, or alcohol solutions.
  - Provide disposable disinfecting wipes for employee use on high-touch surfaces; provide no-touch trash bins.
  - Laundry: wear gloves, use warmest appropriate water setting, dry items completely, do not shake dirty laundry, launder items that have come in contact with COVID-19 separately.
  - Make hand sanitizer, soap and water, or effective disinfectant readily available. Provide pop-up handwashing stations or facilities where necessary (e.g. open houses, construction sites).
  - Personal Protection Equipment (PPE) should not be shared and should be disposed of properly.
  - After using gloves, employees should wash their hands.

Employers Monitoring Symptoms

- Employees who are sick or who appear to have COVID-19 symptoms should be separated from other employees/customers immediately and sent home; immediately clean and disinfect areas the sick employee visited.
- Train managers/leadership to spot symptoms of COVID-19 and to be clear on relevant protocols.
- Monitor employee symptoms, especially fever (100.4 degrees Fahrenheit/38 degrees Celsius, or above). If employees take simple medications such as acetaminophen, ibuprofen, or aspirin, they should take temperature beforehand.
- Do not allow employees to come to work if they feel sick; create or maintain non-punitive leave policies so employees do not feel pressured to come to work or if they are sick. Remind employees to report any illness to a manager, especially if sick with fever, cough, trouble breathing, sore throat, muscle aches and pains, sudden changes in smell or taste.
- If an employee is confirmed COVID-19 positive, employers should inform close contact employees while maintaining confidentiality; close contact employees should self-monitor for symptoms for 14 days.

9 Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains.
Appendix A: Guidelines for Dine-in Restaurants Open in Moderate and Low Risk

Operational Practice

- Limit tables to groups of 10, preferably members of the same household
- Groups of patrons at a table must maintain a distance of 6 feet from patrons of other parties at all times. Either move tables or mark off tables not to be used
- In waiting areas, a 6-foot distance must be maintained between parties, whether indoor or outdoor
- Maintain signage to remind individuals from separate parties to stand at least 6 feet apart; waiting area has floor markers to indicate proper spacing
- Hosts preferably open doors for customers and guide them to their seats to prevent traffic or congregating; hand sanitizer available at door
- Recommendation that upon entry, hosts point guests to signage that includes the following information:
  - Outlines symptoms and encourages that if the patron, or someone they live with, has experienced COVID-19 symptoms, to please order takeout instead
  - Recommendation for high-risk individuals to order takeout/delivery instead of dining in for the protection of that individual
- Manager checks each employee for symptoms before every shift and asks if any member of the employee’s household has tested positive for COVID-19 in the past 14 days. Log must be kept and available for inspection by the local health officer or designee
- Staff must wear face coverings at all times and perform hand hygiene between interactions with each table
- Cups, lids, napkins and straws must be handed directly to customers by staff
- Do not place utensils on table until patron is seated
- Encourage contactless and non-signature payment; when not possible, card and payment stations must be sanitized after each use. Staff must sanitize hands between handling payment options and food/containers
- Staff avoid touching items that have been placed on the table (menus, plates, utensils, pens, cups, etc.). The table will be cleared by a dedicated staff member once all guests have left
- Dedicated staff member sanitizes the area occupied by customers upon departure including tables, menus, pens, salt and pepper shakers, etc. and conducts sanitization of high-touch surfaces throughout the day as needed
- Consider use of disposable items if necessary
- The restaurant may not operate if PPE, EPA-approved disinfectants and sanitizers, soap, and other necessary cleaning supplies are not available; sanitizer is effective against COVID-19. Chlorine (bleach) at 100-200 ppm is recommended
- Hand sanitizer must be available immediately adjacent to bathrooms
- Close restaurant for cleaning and disinfecting in the morning and evening. Cleaning and disinfecting includes all tables, chairs, door handles, floors, bathrooms, and any high-touch surfaces
- Buffet and self-serve restaurants will provide utensils, cups, plates and other service items only from the counter where food is ordered. No one of these items will be accessible to the public. Buffet style restaurants will provide servers who will serve the meals from buffet to limit exposure
- Stagger workstations so employees are not facing one another and are 6 feet apart unless barriers are used, or face coverings are worn
- To-go boxes, pizza boxes, paper cups, and any other paper product that touches food must be treated as food
- Staff must use gloves when handling ready-to-eat foods (including ice). Gloves are not required when handling foods that have yet to be cooked
- Indoor playgrounds in restaurants remain closed

10 Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains
11 High-risk individuals are defined as people 65 years and older, people who live in a nursing home or long-term care facility, people of all ages with underlying medical conditions, including lung disease or moderate to severe asthma, people who have serious heart conditions, people who are immunocompromised (many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications), people with severe obesity, diabetes, chronic kidney disease undergoing dialysis, or liver disease
Appendix B: Considerations for Faith Groups Returning to In-Person Religious Services

Governor Herbert recognizes the importance of faith groups during these difficult times. Under the Orange (Moderate Risk) and Yellow (Low Risk) Utah COVID-19 Health Risk Status Phased Guidelines, faith groups are able to hold in-person religious services of any size as long as a distance of at least six feet is maintained between household groups. This six-foot distance requirement is the only limit imposed by the Phased Guidelines on the number of people permitted to participate in an in-person religious service.

The following are provided as considerations for faith groups and individuals returning to in-person religious services. These considerations were prepared in consultation with a working group of faith leaders representing the rich diversity of faiths in Utah. These considerations are also consistent with ongoing messaging from the Utah Department of Health and are consistent with the best available medical science.

These considerations are not binding on any faith group and should not be construed as an attempt to regulate religious practices. They are provided as information so that individuals can make decisions to protect themselves and others from COVID-19. Each faith group will decide for itself when to resume in-person religious services.

- **Consideration for high-risk individuals:**
  - Limit participation in any in-person gatherings, including religious services, of any number of people outside your household group.
  - High-risk individuals include those:
    - aged 65 and older;
    - who live in a nursing home or long-term care facility;
    - with chronic lung disease or moderate to severe asthma;
    - who have a serious heart condition;
    - who are immunocompromised, including:
      - individuals who have recently received cancer treatment, bone marrow transplantation, or organ transplantation;
      - individuals living with HIV or AIDS; and
      - individuals who have experienced prolonged use of corticosteroids or other immune weakening medications;
    - with severe obesity (BMI of 40 or higher);
    - with underlying medical conditions, particularly if not well controlled, including diabetes, renal failure, or liver disease;
    - who smoke; or
    - with hypertension.

- **Considerations for all individuals participating in an in-person religious service:**
  - Wear a face mask when you cannot maintain a distance of six feet from other individuals from a different household.
  - Do not shake hands with, or otherwise touch, an individual who is not a member of your household group.
  - Avoid high-touch surfaces.
  - Disinfect high touch surfaces frequently.
  - Wash your hands frequently.
  - Wear a face mask and wear gloves or sanitize hands when preparing food to be consumed by individuals from a different household.
  - Avoid group meals that are not part of the religious service.

- **Considerations for faith group leaders organizing an in-person religious service:**
  - Implement measures to prevent individuals from congregating in lobbies or meeting areas where a 6-foot distance between household groups is difficult to maintain.
  - Post signage to remind individuals to maintain social distancing when in common areas.
  - Set an established window of time or provide separate entrances for high-risk individuals to enter and exit without pressure from crowds.
  - Provide multiple meeting schedules to accommodate smaller gatherings where social distancing guidelines can be followed.
  - Provide streamed services to households that prefer to participate virtually.
